

EP Evaluator® launched in Asia Pacific

Quality Assurance for the Clinical Laboratory

Hong Kong. In May 2010, the Asia Pacific subsidiary of Data Innovations sponsored a two-day workshop to launch the Quality Assurance (QA) program, EP Evaluator (EE) in the region. With this launch, Asia Pacific customers will have regional sales and support for EP Evaluator.

In the two-day workshop, held in Hong Kong (May 27-28), Dr. David Rhoads discussed:

- ✓ The importance of quality in clinical laboratories.
- ✓ The importance of Performance Standards in clinical laboratories.
- ✓ Using software statistical tools to improve the quality of results in a clinical laboratory.

Attendees at these workshops included QA and Workflow staff from several local hospitals and reference laboratories along with representatives from the main clinical laboratory instrument vendors.

Dr. David Rhoads, Ms. Lisa Siu of Queen Elizabeth Hospital, and Mr. Macma Suen of Data Innovations Asia
