

PRESS RELEASE: For Immediate Release

Data Innovations Releases Instrument Manager v8.11

December 20, 2010 - SOUTH BURLINGTON, VT: Data Innovations announces the release of Instrument Manager™ (IM) version 8.11. Data Innovations is the worldwide leader in providing solutions that increase efficiency and improve workflow for the clinical laboratory with Instrument Manager™, Laboratory Production Manager™, and EP Evaluator™. This represents the most complete offering in the market for clinical laboratory data management.

With the release of version 8.11, this marks the second major release of IM in 2010 which demonstrates our continuous commitment and investment to providing innovative solutions for the demanding clinical laboratory environment of today. Included in this release is functionality to help users be more efficient with processing specimens. This includes performing actions on groups of specimens, coloring on individual workspaces, and shortcuts to jump between workspaces.

For complete listing of all the enhancements included in the IM v8.11, the release notes are available via our Customer Web Portal (CWP) at support.datainnovations.com.
